

# Rebates up to \$500 for upgrading your attic or roof insulation

New Mexico Gas Company is offering a **rebate of 25% of the cost, up to \$500**, when you have a participating contractor add insulation to your home's attic or roof.\*

Tiered rebate amounts are available depending on the R-Value of your existing insulation. (Higher R-Values indicate better insulating properties.) Ask your contractor for more information.

## Tier I

**Rebate of 25% of the cost, up to \$500**

- Existing insulation is R-11 or less (usually 4 inches of insulation or less)
- Add R-19 insulation or greater

## Tier II

**Rebate of 25% of the cost, up to \$300**

- Existing insulation is between R-12 and R-19 (usually 4 to 6 inches of insulation)
- Increase total insulation to R-38 or greater

\*New construction projects and additions to existing homes do not qualify for insulation rebates.

# Benefits of upgrading your home's insulation

- **Energy and money savings.** ENERGY STAR® estimates that you can save up to 20% on heating and cooling costs by sealing and insulating your home.
- **Improved comfort.** Insulation helps retain the heat in your home during the winter and keeps your home cooler in the summer months. The attic is the easiest place to add insulation to improve the comfort and energy efficiency of your home.
- **More is better.** Insulation levels are specified by the R-Value, a measure of the insulation's ability to resist heat passing through it. The higher the R-Value, the better the insulating performance.
- **Rebates available.** Get up to a \$500 rebate when you use a licensed and insured participating contractor to upgrade your insulation.
